# NAPA HANGING TRAY

## ASSEMBLY INSTRUCTIONS

### ATTACH ROPE HANGER

THE ROPE HANGER HAS THREE ENDS WITH METAL FASTENERS. THE TRAY HAS THREE HOLES AROUND THE EDGE. SLIDE ONE METAL END OF THE ROPE INTO EACH HOLE OF THE PLANTER FROM THE OUTSIDE.

### DO NOT UNTIE ROPE

THE INCLUDED NYLON ROPE IS PRE-KNOTTED FOR EASY HANGING FROM ANY HOOK OR PLANT HANGER.

### SECURE METAL FASTENERS

ONCE ALL THREE ENDS HAVE BEEN PUSHED THROUGH, BEND THE ROPE WHERE IT JOINS THE METAL FASTENER INTO A "T" SHAPE SO IT CANNOT SLIP BACK THROUGH THE HOLE. WEIGHT FROM PLANTING WILL HELP SECURE AND REINFORCE THE BENT SHAPE OF THE ROPE.

### STYLE YOUR PLANTER

NAPA HANGING TRAYS ARE PERFECT FOR CORRALLING AIR PLANTS AND SUCCULENTS. TRAYS CAN ALSO BE USED TO ELEVATE A POTTED PLANT, OR FOR GROUPING SMALL POTS AND WHIMSICAL TRINKETS.

USE YOUR IMAGINATION TO CREATE YOUR OWN ONE-OF-A-KIND LOOK!
